

360 MOBILE HIDE-A-RAIL SYSTEM

The Hide-A-Rail system is the perfect answer for the customer that needs fall protection but doesn't want to see it visible when not in use.

Hide-A-Rail is a passive fall protection system that allows the railing to lay flat and out of sight. When workers need to access the area they simply fold the railings up, pin in place and go about their duties.

FEATURES

- Hide-A-Rail folds down out of public view when not in use for fall protection
- Designed in accordance with OSHA Standards (CFR 1910.29 and CFR 1926.502) and CalOSHA Title 8, Chapter 4, Article 19, 3212; 3209
- Tested for 200 lb (90.7kg) force in any direction
- Assembled height: 42" (107cm) top rail, 21" (53cm) mid rail
- Mounting base weight: 104 lbs (45.8kg)/ea
- Railing tube 1 5/8" (41mm) O.D. hot rolled, pickled and oiled (HRPO)
- Positive locking pin system
- EPDM pads standard factory installed under each base
- 100% Made in USA
- American Welding Society Certified (AWS D1.1 & D1.3)
- SRC Safety Pins: 1010 carbon steel and zinc plated
