

Bolts Together, No Fabrication Required.

Unlimited Configurations
Endlessly Expandable
Unbolt and Re-Purpose with Ease

Pre-Engineered Commercial Stair Systems In Stock and Ready to Ship!

ErectaStep's line of metal stairs and industrial maintenance work platforms, feature modular, lightweight aluminum components that are as easy to reconfigure as they are to assemble. Installation only takes a few hours and requires little more than a wrench. That means no boom truck or heavy crane, most installations take little more than a hand truck and two installers.

Plus, our team of experienced professionals support you from start to finish. We visit your site to identify goals and challenges to ensure the job is done right. And because we utilize a state-of-the-art custom configurator tool, you're able to view accurate quotes and detailed drawings in minutes... letting you see exactly what your project will look like once it's installed.

Features

- Quoted In Minutes - Installs in minutes
- Unbolt, Reconfigure and Relocate in a snap
- No welding, special tools or cranes
- Always OSHA Compliant

Popular Configurations

ErectaStep crossover stairs quickly configures to gain safe access over pipes, dike walls, or other obstructions. Three platforms can be bolted together in a series without tower supports, providing up to 9' of linear clearance.

Need additional clearance? 4 platforms can be bolted together by simply adding a tower support to each end. To design, simply measure your height clearance required, your length clearance, and download an ErectaStep catalog to refer to the chart for which stair model will best suit your needs.

5 Components. Unlimited Configurations

- Universal Platform
- Handrails
- Metal Stairs
- Tower Support
